

FORD ECOSPORT

Discover more with the Urban SUV

The city can serve up many challenges – potholes, busted water pipes, rough roads, just to name a few. That's why the Ford EcoSport moves high above the ground, allowing you to go over, rather than around obstacles. The EcoSport is a great combination of power and efficiency. And it's just the right size for city driving.

No road is too tough

Even if a bit of patchy road is the most you're anticipating, the EcoSport's 550mm* water wading capability makes sure you're ready for the unexpected.

There's no stopping you

Like any SUV, an urban SUV is about getting you where you need to go. The EcoSport puts 200mm of ground clearance between you and the road, potholes, ditches or whatever else comes your way.

All the right moves

You want an SUV but your life is in the city. That's why the EcoSport is the perfect fit. Its right-sized design makes it easy to park and get around those cramped city streets.

Where function meets form

Like a spicy meal without a cold drink to wash it down, fiery intensity wouldn't be much fun without a softer side. So with all its rugged SUV capability, the EcoSport has the comfort of a sedan, right down to the details.

Keyless Entry with Push-button start

Forget fumbling for your keys. The EcoSport senses the key fob on you and automatically unlocks when you pull the door handle. Then just press a button and drive away.

Your music, your way

You've spent all that time collecting and organizing your favourite music. So whether it's an iPod or USB device, with SYNC™, you can play it all.

Control your life, hands free

With SYNC™, it's easier than ever to stay connected while keeping your hands safely on the steering wheel and eyes on the road.

Adjustable steering wheel

Tilt and telescopic steering wheel adapts comfortably to your driving position for a fatigue-free and comfortable driving.

You talk. SYNC™ listens

There's voice control and then there's SYNC™. It seamlessly connects to your Bluetooth® and USB devices, so you can make and receive calls, play your favourite songs or have your text messages read out to you. Just say the words and SYNC™ does the rest.

Safe travel

Wherever your journeys take you, rest easy that the EcoSport has been fitted with some of the latest protective technologies, designed to keep you safe.

Green, in any colour

The EcoSport's engineering and design are all about giving you more of what you need and less of what you don't. That means giving you as many kilometres to every tank we can, without compromising on responsive power. So you spend less time at the pump and more time on the road.

Effortless gear change

It's easy to enjoy driving when our 5-speed manual transmission allows you to move through the gears so effortlessly. If you prefer an automatic but still want the fuel economy of a manual, our dual clutch, 6-speed PowerShift automatic transmission delivers both, with gear changes you barely notice.

International Engine of the Year

You'll be hard-pressed to find a better combination of fuel economy and power than the turbo charged 1.0 litre EcoBoost. This innovative petrol engine uses up to 20% less fuel than a traditional 1.6 litre petrol engine. Yet it delivers the power you'd expect of a 1.6 litre engine with full torque at just 1400rpm.

Airbags all around

Equipped with front, side and curtain airbags, you're protected from every angle you can think of.

Exceptional handling and control*

With technology like Traction Control and Anti-lock Braking System (ABS), the EcoSport reads and adapts instinctively to your drive. While features like Hill Launch Assist stop the car from rolling downhill after you take your foot off the brake, giving you just enough time to smoothly accelerate away.

*Available only in Automatic Transmission.

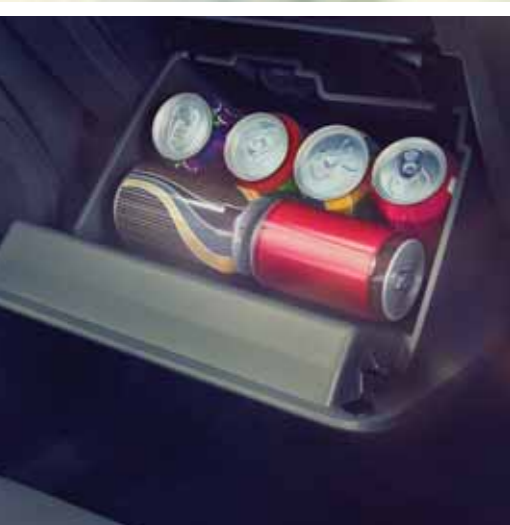

No pocketbook, no problem

No one likes fishing around in their pockets or cluttered bags. The EcoSport's smart storage design ensures that life's essentials are always easily within your reach.

More load space, less road space

When we say the EcoSport is right-sized, we're not just talking about how easy it is to drive in the city. We're also talking about how much room it gives you inside.

A place for everything

It's a car. It's an organizer. It's the end of clutter. The EcoSport's 20 storage spaces have all the features you'd expect, like side-door pockets and cup holders, as well as a few handy surprises like a glove box that doubles as an air-conditioned beverage cooler and a slide-out drawer under the front seat. Even your sunglasses have their own space.

Space that grows

Fold-down one of the 60:40 rear seats and you can transport long objects while still bringing along a few passengers. Fold them both down and your 705 litres of space becomes large enough to fit a washing machine. Or something else more fun that fills your life.

Accessories

When it comes to fitting out your Ford EcoSport, we've got everything you'll ever need. Wherever you're heading.

Roof rails

Rear spoiler

Side step bar

Scuff plate

Spare wheel cover
